

1. On the Windows taskbar click on the **Network** icon. (If you are currently not connected to a network, this will look like an airplane)

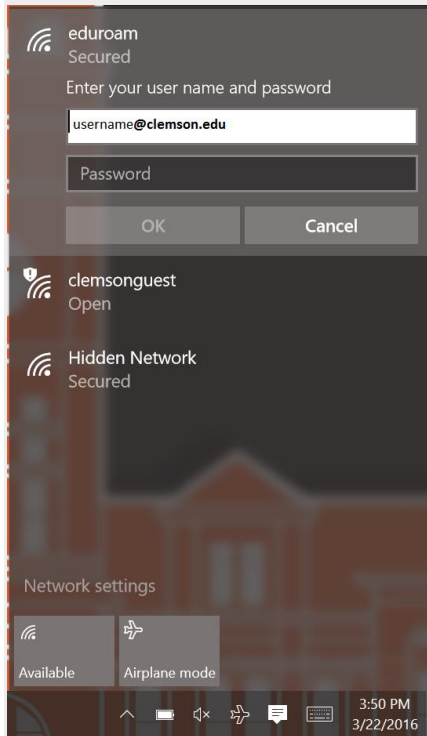

2. The **Networks** Panel will appear on the right side of the screen.
3. Click the **eduroam** network.

4. Select the **Connect Automatically** checkbox then click **Connect**.

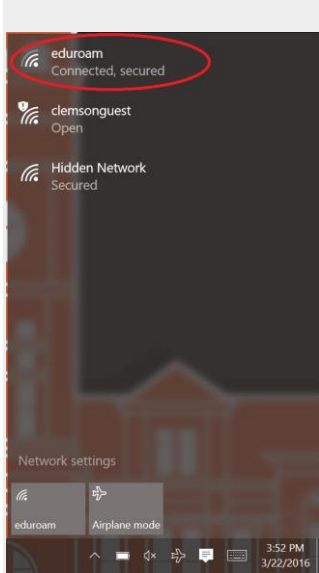

5. Enter your **username@clemson.edu** and your network **password**. (You **MUST** include '@clemson.edu' after your user name for eduroam to connect)

6. Then click **OK**.
7. Click **Connect**.

8. You are now connected to eduroam.
