Canvas Calendar - Events from Course(s)

1. All items with a due date (assignments, quizzes, etc) are added to the calendar automatically.

2. The Calendar will only display items with due dates when the course is selected on the right.

3. Only quizzes which are normally automatically graded will trigger Canvas to line out the quiz when it's complete.

4. Assignments have to be submitted and graded to trigger this action.

5. Assignments where a submission is not required will not be lined out even if graded.
