

HOW TO: Configure Outlook for Windows and Mac

Article Number: 111 | Last Updated: Tue, Apr 7, 2020 at 1:08 PM

For instructions on configuring your Outlook account on a windows computer, please see the following link, and choose the appropriate version of outlook that you have on your computer. There is a tab for Macs.

<https://support.office.com/en-us/article/Outlook-email-setup-6e27792a-9267-4aa4-8bb6-c84ef146101b> If the automa configuration does not work for these accounts, you may need to manually input the server and port information. Please refer to the following for the appropriate server/port information:
