

How do I add a Scheduler appointment group in a Canvas course calendar?

1205 Laurie Sherrod April 10, 2024 [Calendar](#)

You can create appointment groups in the Scheduler. Appointment groups create a block of time where students can meet with you. Students can sign up for appointment times in their own calendars.

Appointments display in your calendar after a student or group has reserved a time slot. Appointment details are also included when you export the calendar using the Calendar feed.
