

## HOW TO: Connect to eduroam, the Clemson University Wireless Network

Article Number: 134 | Last Updated: Wed, Oct 9, 2019 at 9:04 AM

**How to setup eduroam on your laptop or mobile devices:** Go to your Wi-Fi settings. When entering the username for eduroam, use the **Clemson username** and append @clemson.edu to the end of it. For example, John Doe with username **jdoe** would enter **jdoe@clemson.edu** for the username in eduroam. Also use your regular **password** that you use for Canvas, iROAR, etc. **Note:** There currently exist automatic installers for connecting Windows and Apple laptops to eduroam. We also have documentation for manual setup on all devices. Information, documentation, and the installers can be found on the following page: <https://www.clemson.edu/wireless>
