

Activating Alteryx in CUApps

1415 Matt Rector June 8, 2022 [Citrix](#), [Software & Hardware](#)

Students can apply for an educational license on the Alteryx website: <https://www.alteryx.com/sparked/students>

Log into CUApps, Click on **Desktops**, and Launch **Alteryx** Desktop

When the Desktop is up and running launch Alteryx from the Start Menu

A

Access

Adobe Acrobat DC

Adobe Acrobat Distiller DC

FSI onix

Web Browsers

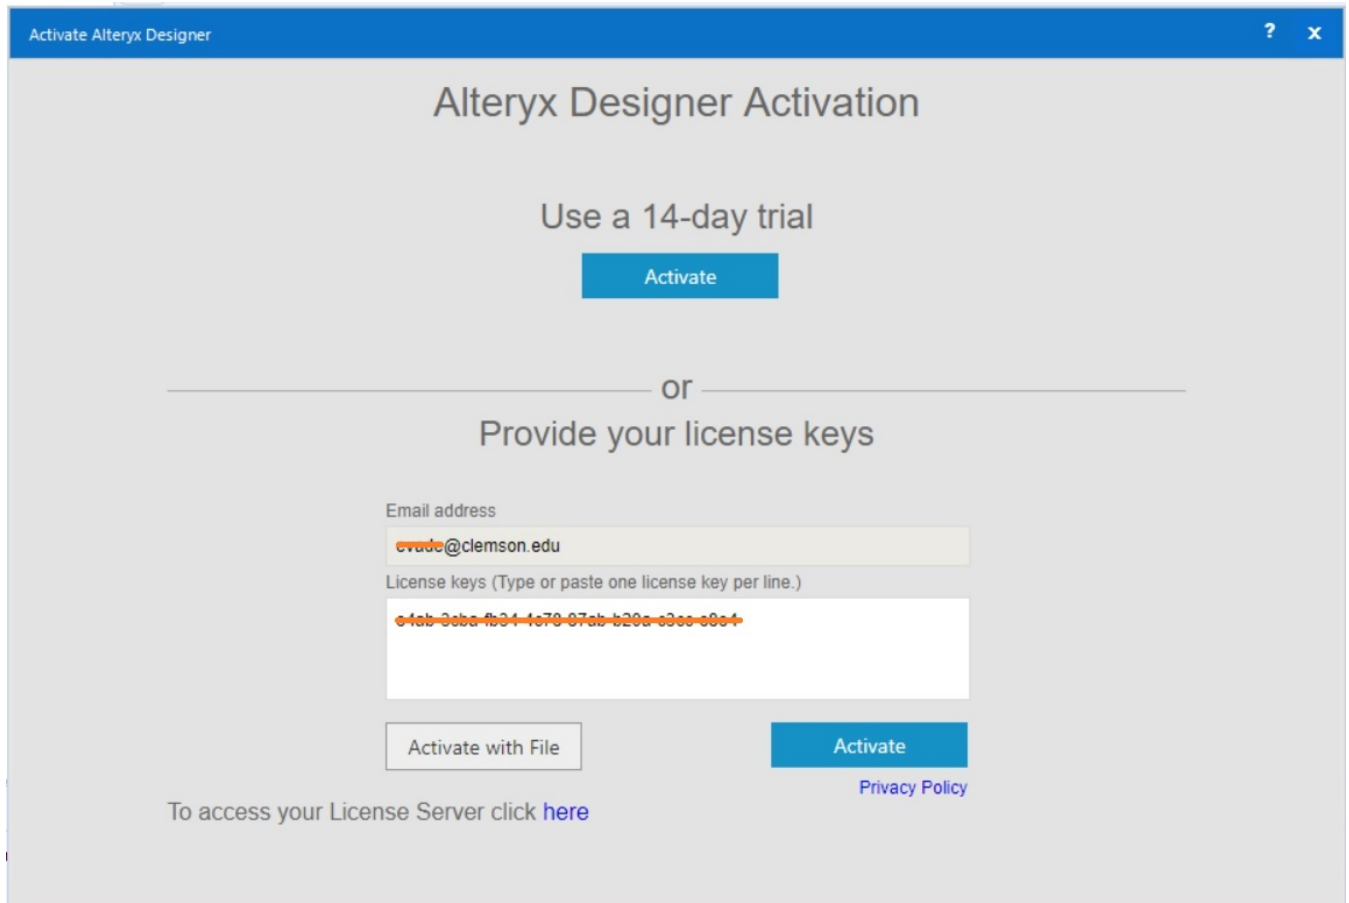

Microsoft Edge

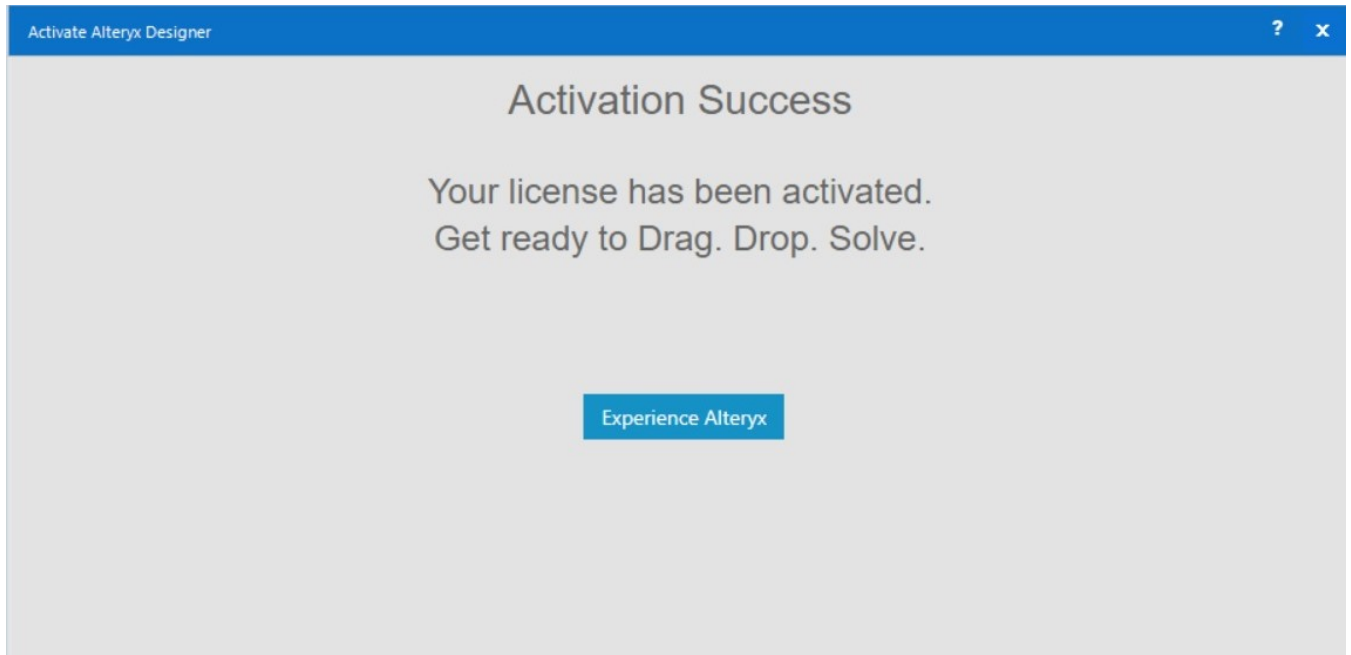

When Launching Alteryx Designer for the first time you will be prompted to provide your license key, enter the Clemson email address you used to register for the license and the license key which you should have received via email and click **Activate**.

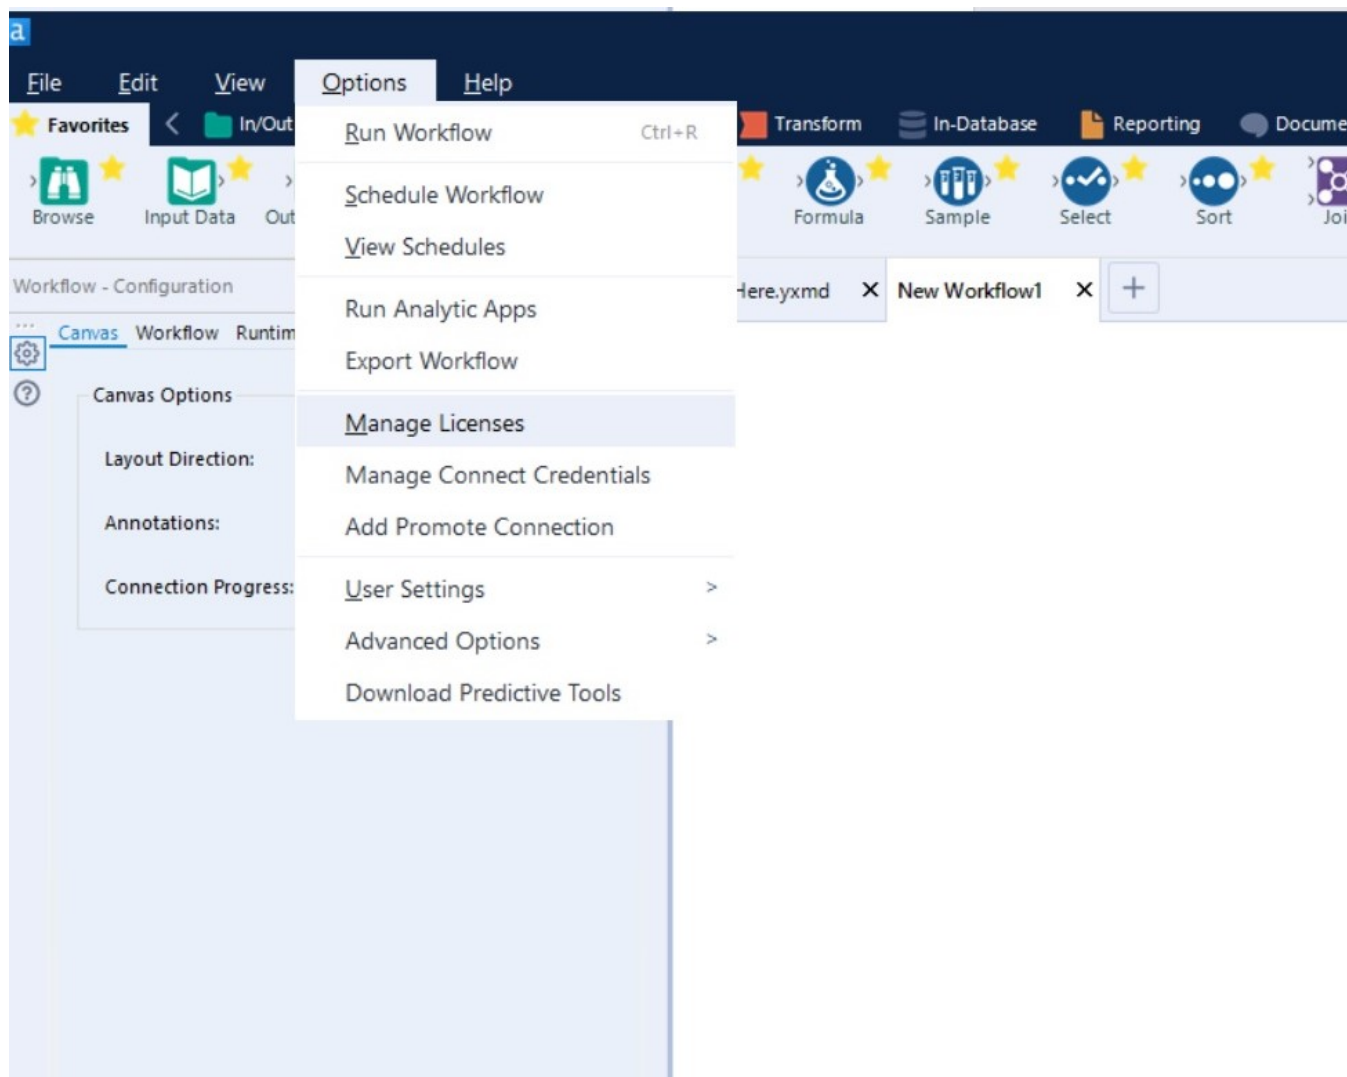

(If you are not prompted, Click on **Options** , then **Manage Licenses**, then click **Activate**.)

The image shows the 'Activate Alteryx Designer' window. The title bar is blue with the text 'Activate Alteryx Designer' and window control icons. The main content area has a light gray background. At the top, it says 'Alteryx Designer Activation'. Below that, it says 'Use a 14-day trial' with a blue 'Activate' button. A horizontal line with the word 'or' in the center separates this from the next section. The next section is titled 'Provide your license keys'. It contains an 'Email address' field with 'cvade@clemson.edu' entered. Below that is a 'License keys' field with the text '(Type or paste one license key per line.)' and a single license key 'e1ab-3aba-fb34-4e78-87ab-b28a-83ee-88e4' entered. At the bottom, there are two buttons: 'Activate with File' and 'Activate'. To the right of the 'Activate' button is a link for 'Privacy Policy'. At the bottom left, it says 'To access your License Server click [here](#)'.

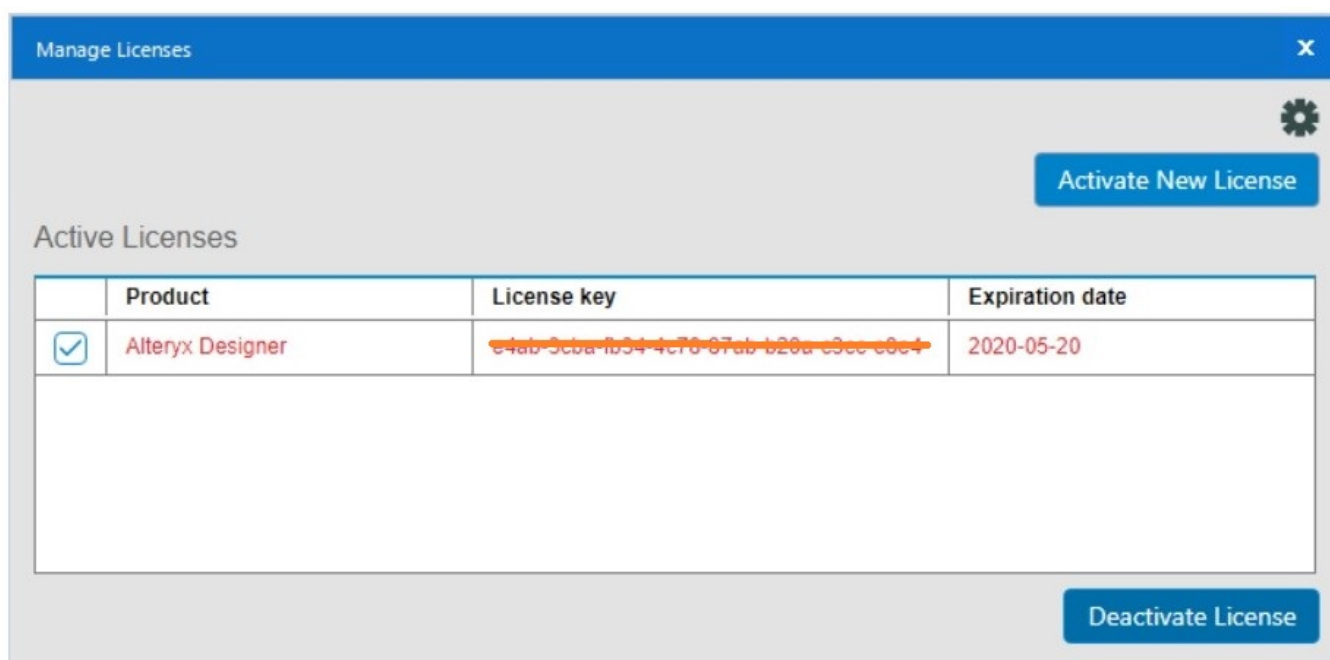

Click on **Experience Alteryx**. The software is now activated.

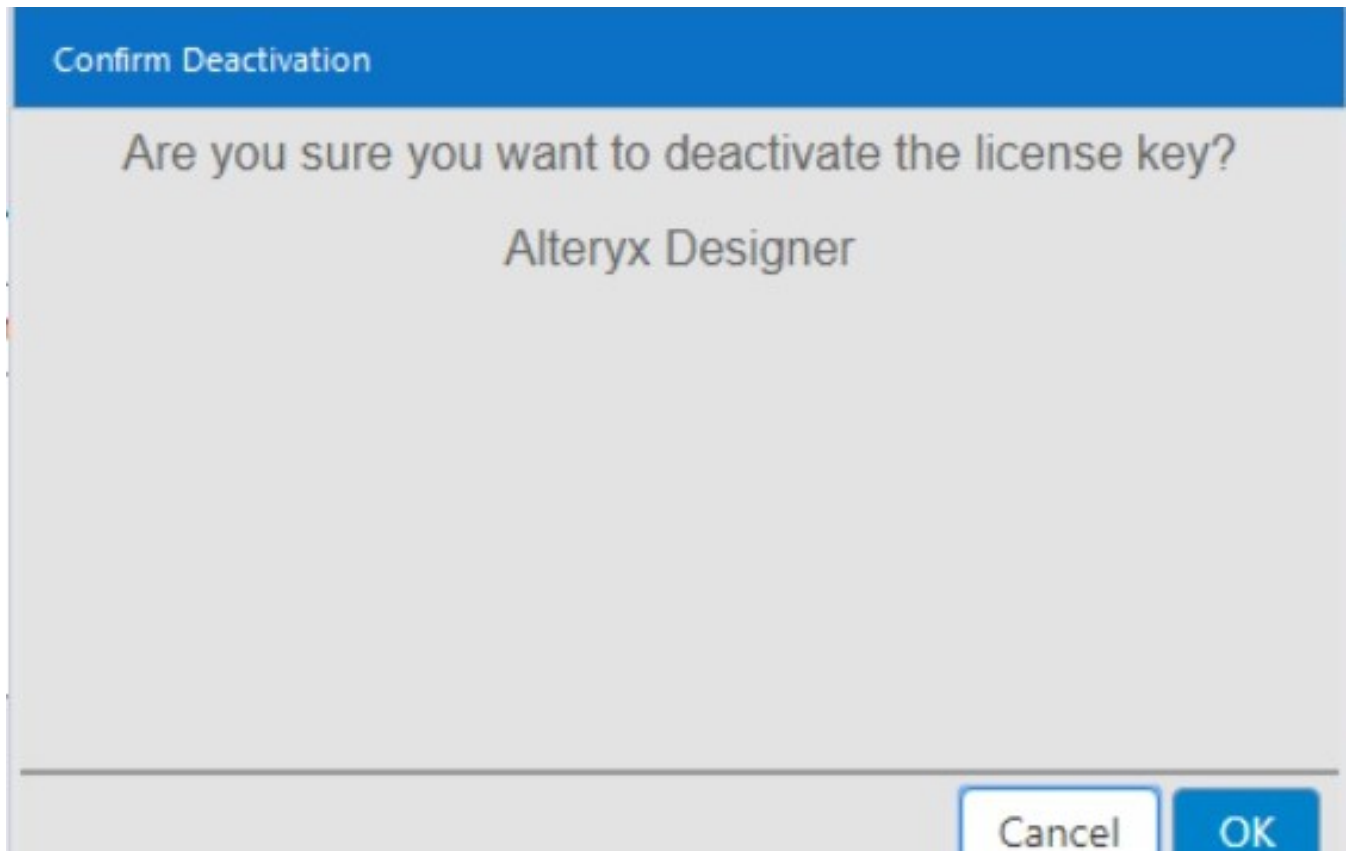

If you want to use your license on another computer you must deactivate in CUApps first to do this, click on **Options** and select **Manage Licenses** .

Check the box next to your license key and click **Deactivate License**.

At the confirmation prompt click **OK**.

You can now activate your license on another machine.

Copy License Key

The license key can now be used by another user, or on a different computer.

Copy the license key if you want to activate it again.
