HOW TO: How to Add More Money Once Your Paw Prints Quota Has Run Out

232 KB Admin April 10, 2015 <u>Printing & Plotting</u>

After your Paw Prints quota(s) have been used up for the semester, Paw Prints will attempt to charge your print jobs against your TigerStripe account. If your TigerStripe balance is empty, you'll get an error when you try to release your jobs about "insufficient funds." To add money to your TigerStripe account, go to <u>http://t1online.clemson.edu</u>. After adding funds here, be aware that it can take a few minutes for that money to be available.

Your Paw Prints quota(s) will renew at the beginning of the next full semester (Spring, 1st Summer, or Fall).
