HOW TO: Checking Your Paw Prints Balance

234 KB Admin March 30, 2018 [Printing & Plotting](#)

Print quotas are reset at the beginning of every semester (usually 1-2 days before the start of classes) but **you will not see your account updated with the new amount until you submit your first print job of the semester**.

You can use the following methods to check your print quota:

- Logging into or swiping your TigerOne ID card at one of the PawPrints release stations
- Using the my.Clemson app on your iOS/Android device, or by going to this link: https://my.clemson.edu/#/pawprints
- Using the PawPrints MoblePrint website at this link: www.clemson.edu/onlineprinting

If the amount in your account looks incorrect after you have submitted a print job, please contact ithelp@clemson.edu.
