To install the Respondus LockDown Browser, please follow the steps below:

First, click on this direct link: <http://www.respondus.com/lockdown/download.php?id=548836813> and skip to step 3, or follow all of the steps below. Open your browser and navigate to

<https://www.clemson.edu/online/tools/responduslockdown.html>

Scroll down and click on the tab that says **Downloads**, and click the link that says **Navigate to the Respondus Lockdown Browser Installation Website**.

Click **Install Now**. Next, click **OK** in the pop-up. Follow the remainder of the instructions on the website and click **Finish** to finalize the download.

NOTE: Do **NOT** download this application from the Respondus website (www.respondus.com) as it will not work, since we have a customized version that works with Clemson's Canvas server.
