OVERVIEW: Tableau in CUApps

3222 Sam Beckler April 2, 2024 [Citrix](#)

Teaching and Student

CUApps provides Tableau for Teaching and Student use. Students have access to Tableau, but Faculty teaching Tableau will need to submit a ticket requesting access for use with their class. Please include reason for request and class being taught.

Research and Staff

To use Tableau for research and admin functions you will need to purchase a license from [Tableau](#). Once purchased you can use CU Virtual Desktop to access Tableau. You will need to enter your license each day.
