

Office 365: File Attachment Issues in Outlook

Article Number: 331 | Last Updated: Thu, Mar 10, 2016 at 12:48 PM

With the new roll out of Office 365, as with any new system, there have been a few glitches that may effect your experience. **Issue:** If the attach file option is not available when sending an email. **Solution:** Upload a file to OneDrive before attempting to attach the file. Update your browser to the latest version. Try using a different browser (Firefox, Internet Explorer, etc.) If you need further assistance please contact CCIT at 656-3494 or email us at ITHELP@clermson.edu.
