

# Installing the WinRAR License

377 Faye Buckley May 27, 2016 [Installation Documentation](#)

## Installing the WinRAR License

### **On Windows**

Copy RARREG.KEY to your C:\Program Files\WinRAR folder.

### **On MacOSX**

Copy RARREG.KEY to your /bin folder.

### **To extract your RAR keyfile for other operating systems**

Copy your key file into your home folder, for example /root/ or /home/user, or to your RAR folder.

To check that your registration is OK, start RAR with no commands, your AV code should appear immediately below the RAR version and copyright notice.
