User Account

[1\) How can I manage my notifications in Canvas?](#)

To manage your notifications in Canvas, navigate to Account in the Global Navigation menu (the purple menu on the far left-hand side). Then, click on Notification Preferences. This will allow you to manage your notification preferences. Visit this link for step-by-step instructions:

<https://community.canvaslms.com/docs/DOC-1286>

[2\) How can I add contacts in Canvas?](#)

By default, notifications are sent to the email address you used to create your Canvas account. To add an additional contact method to your Canvas account, click on Account in the Global Navigation menu (which is the purple menu on the far left-hand side). Navigate to Settings, and then click +Email Address to add an additional email address or +Contact method to add a cell number for SMS text notifications.

For more information on adding an additional email address to your Canvas account, go to

<https://community.canvaslms.com/docs/DOC-2894>.

[3\) How do I confirm multiple means of communication in Canvas?](#)

Canvas allows you to receive notifications via multiple means, including email, phone (via SMS), and web services. You will need to confirm each method of contact in order to receive notifications. For more information on how to do so, visit <https://community.canvaslms.com/docs/DOC-2281>.

[4\) How do I register and integrate web services in Canvas?](#)

Canvas can be configured with multiple third-party web services, including (but not limited to) Google Drive, Skype, Twitter, LinkedIn. You can integrate these web services from your user Settings page. For more information on integrating web services with Canvas, visit <https://community.canvaslms.com/docs/DOC-1287>.
