

HOW TO: Install SMART Board or Podium Drivers

Article Number: 54 | Last Updated: Fri, Feb 20, 2015 at 12:21 PM

To download the Software, please follow the steps below: Open your web browser and navigate to the following web page: <http://smarttech.com/us/Support/Browse+Support/Download+Software>

Find Smart Product Drivers and click **Choose a version**. A new page will be displayed. Click the **Download** button. Select **No**, for the Smart Response Hardware question. The Education Software Installer 2012 for Windows page will be displayed. Complete the online form. Then click **Start Download**. Save the software to your local computer. Run the software installer. After the software installation is complete, you can enter your product keys to activate the software.

NOTE: If you don't enter a product key, you start a 30-day software trial. You can enter product keys at any time after installation. Download and install service pack 1 for SMART Product Drivers 11 and service pack 1 for SMART Ink 1. **To retrieve your SMART Notebook software product Key, please follow the steps below:**

Open your web browser and navigate to the following web page:

<http://smarttech.com/Support/Browse+Support/Lost+Product+Key+Form>

Click **Find your serial number**. Choose which Smartboard you have and it will tell you where to find the serial number. Once you have the number you can plug it in along with your email address and it will send you the product key to get you up and running. You will need the product key to activate the software when you are installing the Smart Product Drivers.
