

What To Do if Your Electronic Device is Stolen

621 Faye Buckley October 3, 2017 [Security](#)

If you are a victim of a theft on campus, the first step you should take is to report it to the campus police by calling (864)656-2222. From there, the police will be able to work with CCIT security to try to locate your device if it has been registered on Clemson's network.

Please make sure you give as much information as possible when you are filing the police report. This information should include the make and model of the device, the last known location and approximate time of theft. Please also provide your username, and if you have the MAC address of your device, this will be vital to tracing it on our network. You can check the MAC address if you have registered it on netreg.clemson.edu under your registrations.
