How to remotely wipe your Mobile Device via Exchange OWA

Use your preferred browser to visit <http://outlook.com/owa/clemson.edu> and log in using your clemson credentials.

Click the gear icon in the top right hand corner.

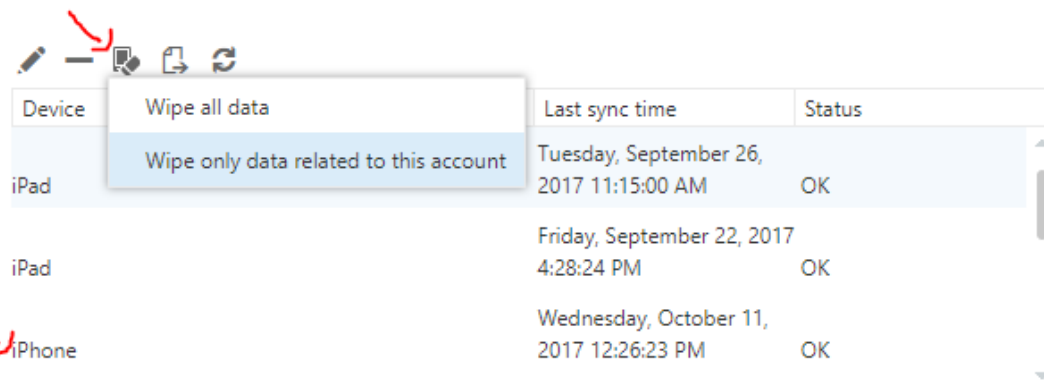

Next look to the bottom right hand side and select **Mail**.

Next, look to the top left and click the drop down box for **General**. You should now see **Mobile device**. Click it. Highlight the device you want to wipe, and then click **wipe data icon**. Choose the option to **wipe only data related to this account**. **Note: If you only have one device listed you will only have one Wipe option.**

Mobile devices

These are the mobile devices that are synchronizing with your mailbox. You can remove a mobile device, access your device recovery password, initiate a remote device wipe, or block your phone if you lose it. When you add a new device and set it up to synchronize with your account, it will appear in the list below. [Learn more](#)
