Box Storage: Logging in from Mobile Apps

687 Laurie Sherrod June 21, 2023 Box

If you are on a mobile device, either from a browser or from a Box App, you should follow these instructions to log in to Clemson Box. If at any time while using a Box app you get an option "Use Single Sign On (SSO)", select that option. These instructions will be following installing the Box App on an Android phone for the first time. On other platforms, the screens should be very similar.

The first screen you see will look similar to this. Click on **LOG IN**.

Then you will be asked for your email address. Enter your Clemson username@clemson.edu. Do NOT include a "g" (as in g.clemson.edu).
