

Clemson Box Secure Folders

691 Laurie Sherrod October 29, 2019 [Box](#)

Box Secure folders provide for enhanced controls and a more auditable Box configuration. The secure folders are used when there is a need to store or collaborate on sensitive data. Box Secure Folders are owned by the university, but managed by the requesting user. To request a Box Secure Folder, go to this link where you will see a form to download and complete:

<https://ccit.clemson.edu/services/security/security-awareness-education-and-consulting/information-security-procedures-standards-and-forms/>

For more information, email ITHELP@clemson.edu or call 864-656-3494.
